Forecast for Monday 06 Nov 2023

Weather: Scattered showers continuing along western coastal areas and across the south of the area. Elsewhere dry with variable amounts of cloud and some clear or sunny periods. Showers will be occasionally heavy with a chance of thunder. Longer spells of rain across northern Lochaber and Skye for a time from mid-afternoon until early evening. Any wintriness confined to the very highest tops.

Chance of cloud-free hill tops above 800m: 70%, best chance across the east

Low cloud and visibility: Very good visibility with great air clarity outside of cloud and showers. Poor in areas of cloud down to 600 to 900 metres, lowest cloud bases along the coast as showers pass by.

Met Office Aberdeen Meteorologist's View
Nothing to add

Forecast for Tuesday 07 Nov 2023
Weather: Often cloudy with scattered showers, and more in the way of cloud and showers around than of late. Showers will die away from the west from mid-afternoon onwards. Any wintriness confined to the very highest tops.

Maximum wind: Westerly 10 mph

Chance of cloud-free hill tops above 800m: 50%

Low cloud and visibility: Poor in areas of cloud down to 600 to 900 metres, this becoming widespread in the morning.

Temperature: **Glens:** Plus 4 rising to 8 Celsius
At 800m: Plus 3 Celsius
Freezing level: 1200 to 1500 metres, falling to 1000 metres in the evening
